We do not have access to this SharePoint site to review these videos. Can someone give EOC access?

Melissa, based on what you're asking, these videos need Ron Slotkin's team to do some editing.

Additionally, has anyone in the EOC reviewed this content?

We need to keep the EOC PIO and EOC OGC in the review loop with new content.

Hi. This is the info that came in with the videos: Ms. Houston,
I have included links to download the raw video files I have in my possession in regards to the Gold King Mine Blowout. Please let me know if you need anything further or have access issues.

Thank You,
Elliott

I'd suggest we do not name the contractor's videos. Perhaps just a short explanatory statement with each. Something like "this is a raw video file of the Gold King Mine Blowout taken by EPA contractors."

Subject: Videos for GKM

Web team-new videos of the GKM release need to be uploaded to the GKM website for

likely release tomorrow. They can be found at:

https://usepa.sharepoint.com/sites/R8_Work/GoldKingDoc/layouts/15/start.aspx#/SitePages/Home.aspx?R

There should be 11 total. A couple of the videos appear to have been flipped when they were sent to us. There are also a few explicatives, which I suggest bleeping. Stacey can also weigh in. Is it possible to post the version as sent to us, along with a second version where the viewer can watch the video right side up? I'm assuming we will need to post on our YouTube channel and then link from the website. Is that correct?

Joan-is there additional info we could use to title the videos?

I'm not sure how long it will take to fix/upload, but we plan to release these tomorrow. Please keep Laura and Dan in the loop as I have to travel the next two days.

Thanks!

Melissa
